

Percentage of Impact Aid Eligible Students Participating in Liberty High School Programs

Survey date 12/1/20 for 2020-21 Fiscal Year

Program	Percentage Participation Impact Aid Eligible Students
Student Population (78)	24% (19/78)
Art/Office or Teacher Aides (CTE)	17% (2/12)
Special Education Services	31% (5/16)
Transportation (Remote-Distance Learning)	24% (19/78)
CVIT	0% (0/0)
Junior High Enrollment	29% (4/14)
Accuplacer (Soph/Jr/Sr- 3/2019)	0% (0/0)
ACT testing (all Juniors – 4/2020)	0% (0/0)
Credit/Attendance Recovery	36% (16/44)
Weekend back pack support	29% (2/7)
Leadership Team	17% (1/6)
Night School	29% (4/14)
Seniors on track to graduate 2021	8% (1/12)
Graduation (2020)	17% (2/12)
Average percentage IA participation	24%

As of December 1, 2020, the survey date, there were 19 out of 78 students, or 24% of the LHS population eligible for Impact Aid (IA); all those eligible were either living on, or had parents working on the San Carlos Apache Reservation and all are Native American. Of each program or service offered by Liberty, the percentage of Impact Aid students participating was, on average, 24%, equal to the actual Impact Aid student percentage of 24% of the school population, thus, an equally proportionate distribution of school services was given to IA students. Note: Many of the regular programs were not available to any LHS students due the pandemic, so were not included in the calculations.

The Impact Aid allotment for the fiscal year so far, \$36,729.88, has not been received yet. This will be used for teacher retention bonuses to support our highly qualified teacher population, and for 5% of teacher salaries, as well as 3% of online instructional materials for a subtotal this far, of \$ 36,184.41. An additional amount will be spent for laptop replacements or damage repairs for remote-distance learning during the pandemic, rather than being expended on San Carlos transportation costs (fuel and bus maintenance) as all student transportation was suspended.
